I excel at blending engineering and design to maximize my potential. Seeking opportunities in dynamic, innovative, and complex environments where I can thrive.

EXPERIENCE

Thomson Reuters

FEB 2023 - Present
fulltime

AUG - DEC 2022
intern

Data Visualization Developer

- Developed information visuals and narratives for breaking news across diverse subjects in time-sensitive environments. Utilized data-crawling techniques to identify relevant stories and create engaging visualizations.
- Designed static graphics for Reuters clients in time-sensitive scenarios to inform audiences about breaking news.
- Recognized with multiple awards, including accolades from Information is Beautiful (IIB) and the Society for News Design (SND).

Freelance

NOV 2019 - AUG 2020

- Collaborated with developers to integrate UI/UX design, branding, and data visualization solutions, facilitating diverse businesses in achieving their goals.

Yudiz Solutions Pvt Ltd, Ahmedabad

MAR 2018 - OCT 2019

Jr. Designer

- Collaborated with stakeholders, product managers, and developers to conceptualize and design websites and mobile applications for multiple organizations.
- Developed guidelines and provided mentorship to a team of five individuals to ensure consistency in the firm's design processes.

EDUCATION

National Institute of Design, Bengaluru

SEP 2020 - JAN 2024

Master of Design Information Design

CGPA : 8.24

VVP Engineering College, Rajkot

APR 2013 - MAR 2017

Bachelor of Engineering Computer Engineering

CGPA : 9.46

RESPONSIBILITIES

National Institute of Design, Bengaluru

SEP 2020

Core Placement Committee

Facilitated biannual placements for over **450 students** by coordinating with both students and recruiters, alongside two peers.

VVP Engineering College, Rajkot

2016 & 2017

Vedanta

Organized a highly attended intra-college tech fest, drawing over **700 students** from diverse disciplines, and provided mentorship to participants in the subsequent year.

VVP Engineering College, Rajkot

2013-2017

Novateur Commune

Contributed to organizing various computer engineering events with a team of three classmates.

SKILLS

Data Visualisation • Data Wrangling
Geospatial Analysis • UX Design • UI Design •
Design Systems • Quantitative Research
Rapid Prototyping • Instructional Illustration •
Information Architecture • Generative Art

TOOLS

Figma • Svelte • D3.js • Observable Plot •
three.js • Processing • QGIS • Blender •
HTML-CSS-JS • Python • Adobe Illustrator •
Affinity Photo • Affinity Publisher

AWARDS

Society for News Design

2024

Elements: Data visualization
