I love combining engineering and design in order to bring the best out of myself. Looking to work in challenging, experimentative and complex environment.

EXPERIENCE

Thomson Reuters

AUG 2022 - Present

Data Visualization Intern

- Conceived and built several information visuals and narratives on diverse breaking news subjects in a time-sensitive setting by data-crawling for relevant stories and producing attractive and straightforward visualizations.
- Designed static graphics in a time-sensitive and urgent environment for Reuters clients to educate audience about breaking news.

Freelance

NOV 2019 - AUG 2020

- Coordinated with developers to use UI-UX design, branding, and data visualisation to aid diverse businesses in achieving their objectives.

Yudiz Solutions Pvt Ltd, Ahmedabad

MAR 2018 - OCT 2019

Jr. Designer

- Worked with stakeholders, product managers, and developers to conceptualise and design a variety of websites and mobile applications for a number of different organisations.
- Created guidelines and provided support for five people working under me in the same function in order to keep the firm's design process consistent.
